Now is the time to get yourself into the **2009 Virginia Production Services Directory**. This valuable resource is mailed to production companies and studios and is provided to everyone who is interested in filming in the state. In addition, it's available online at the [Virginia Film Office](#) and [Oz Publishing](#) websites and also is formatted so that it can be sent to prospective clients via email or fax. There's even a mini interactive digital version. [Go here to see it](#). The online version is becoming increasingly more important because many clients prefer to access information digitally, rather than through a printed book. New production credit? Change your cell phone number? The online version is as current as you want to make it. Why should EVERYONE be in the Virginia Production Services Directory? Because it's the most comprehensive and extensively used guide to Virginia's film and television resources available. It showcases crew and businesses and demonstrates to the production industry the kind of exceptional people and services Virginia has to offer. Basic listings are free to Virginia crew. Expanded listings for crew and businesses, listings for non-Virginia crew and display advertising are also available for a fee.
